

# MEDICAL OXYGEN REFILLING OPTIONS MADE EASY

## **OPTION A – SERVICE EXCHANGE UNIT SCHEME FOR COMBILITE SYSTEMS**

We can exchange your **privately owned COMBILITE** with an identical product pre-released by our QP which will be sent out the day of order (order before 12 noon). We will arrange collection of your own cylinder which will then become our property. We undertake and guarantee that our service exchange unit will be in full compliance with all mandatory and National regulations concerning the cylinders recertification. For further details contact the Office on 021-4968383 or [sales@indpt.ie](mailto:sales@indpt.ie)

## **OPTION B – OLD FOR EXCHANGED NEW CYLINDER COMBILITES UNDER A LEASING SCHEME**

We will trade in your own COMBILITE that you purchased and lease out to you an identical replacement unit pre-released by our QP which will be sent out the day of order (order before 12 noon). We will arrange collection of your own cylinder which will then become our property. We undertake and guarantee that our service exchange unit (SEU) will be in full compliance with all mandatory and National regulations concerning the cylinders recertification.

The advantages of leasing are:

- Immediate delivery of replacement unit
- No costs associated with the recertification of the cylinder
- No costs associated with any service required to your regulator unit
- You pay only for the gas as and when you use it

The cost of the above scheme is dependent on the age of your unit. For further details contact the Office on 021-4968383 or [sales@indpt.ie](mailto:sales@indpt.ie)
